RESEARCH SUMMARY	My prior research has focused on information retrieval, text understanding, and applying advanced NLP techniques in interdisciplinary areas. In particular, I have been working on zero-shot text ranking , complex query-based summarization , and social media mental health analysis . As I continue to delve into the realm of LLMs, I would love to continue my research on various LLM-based tasks beyond information understanding and seeking. Additionally, I am keen on creating data-driven solutions that cater to a variety of interdisciplinary fields.	
RESEARCH INTERESTS	information seeking, information understanding, interdisciplinary NLP solutions	
EDUCATION	South China University of Technology, Guangzhou, China B.Eng.(Expected in 2025 fall), Future Technology Department <ul style="list-style-type: none"> • Advisor: Prof. s. eng. Lin Shu • GPA: 3.67/4 • Main courses: Introduction to Artificial Intelligence (4.00/4.00), Deep Learning and Computer Vision (4.00/4.00), Data Structures (4.00/4.00), Big Data and Data Mining (3.70/4.00), Machine Learning (3.70/4.00), Optimization Methods (4.00/4.00), Discrete Math - Organised by Girton College of Cambridge (4.00/4.00), Probability Theory and Mathematical Statistics (4.00/4.00), Complex Analysis (4.00/4.00) (Not list all due to the space) 	September 2021 - Present
RESEARCH EXPERIENCE	Tsinghua University, Beijing, China <ul style="list-style-type: none"> • Visitor, supervisor: Prof. Zhiyuan Liu • Project: Personalized human-bot dialogue system Westlake University, Hangzhou, China <ul style="list-style-type: none"> • Visiting Student, supervisor: Prof. Yue Zhang • Participating in the National Natural Science Foundation of China (NSFC) project of Prof. Zhang • Project: Incorporating LLMs for better ranking <ul style="list-style-type: none"> – Incorporating the idea of multi-agent to enhance point-wise ranker – Benchmarking LLMs' query based summarization ability based on complex queries – Try to prove that natural language feedback can outperform classic label feedback in Human-in-the-Loop (HIL) iteration. – Investigating an iterative text ranking agent that adapts its comprehension of the user's search intent through learning from labels and autonomously calibrating its interpretations. 	June 2024 - September 2024 July 2023 - June 2024
	South China University of Technology, Guangzhou, China <ul style="list-style-type: none"> • Project Lead, supervisor: Prof. s. eng. Lin Shu • Project: Design of a Depression Risk Assessment System Based on Psychological Scales and Large Language Models • Grant: National Level College Students' Innovation and Entrepreneurship Training Program, 2023 	May 2023 - April 2024
	South China University of Technology, Guangzhou, China <ul style="list-style-type: none"> • Project Lead, supervisor: Prof. Xiangmin Xu, Principal Researcher Mo Yu • Project: Depression Tendency Analysis Chatbot Based on WeChat Official Accounts • Grant: Guangdong Province Science and Technology Innovation Strategic Special Fund Project, 2022 	November 2021 - March 2024
	University of Science and Technology of China, Hefei, China <ul style="list-style-type: none"> • Visiting Student, mentor: Dr. Yadong Li • Project: A Wearable Device Based on Somatic Interaction Technology 	October 2019 - November 2020

PUBLICATIONS
(* EQUAL
CONTRIBUTION)

1. Zero-shot Explainable Mental Health Analysis on Social Media by Incorporating Mental Scales
W. Li, Y. Zhu, X. Lin, M. Li, Z. Jiang, Z. Zeng
Short Paper of International World Wide Web Conference (WWW), 2024
2. Generating Diverse Criteria On-the-Fly to Improve Pointwise LLM Rankers
F. Guo*, **W. Li***, H. Zhuang, Y. Luo, Y. Li, Q. Zhu, L. Yan, Y. Zhang
The 18th ACM International Conference on Web Search and Data Mining (WSDM), 2025
3. Wearable device based on arm somatosensory interaction technology
W. Li
Practical Electronics journal (ISSN: 1006-5059), 2021
4. AuthorSight-QA: Benchmarking Multi-Scientific-Paper QA in the view of Authors.
F. Guo*, **W. Li***, Y. Zhang, 2024 (Pre-print)

PATENT

1. Wearable device based on arm somatosensory interaction technology
W. Li
China patent, CN110413126B
2. Somatosensory camera convenient to install
W. Li
China utility model patent, CN210716640U
3. Depression Risk Assessment Method and System Based on Psychological Scales and AIGC Large Models
W. Li, M. Li, Y. Zhu, X. Lin, J. You, Z. Jiang
China patent, Application Number: 2024103834530 (Under review)

SCHOLARSHIPS&
AWARDS

- Third-Class South China University of Technology Scholarship, 2023-2024
- Study Abroad Innovation Award, Future Technology Taihu Innovation Award by Wuxi government, 2023
- Third-Class South China University of Technology Scholarship, 2022-2023
- Third-class EXCELLENCE GROUP Enterprise Donated Scholarship, 2022-2023
- Future Innovation Award, Future Technology Taihu Innovation Award by Wuxi government, 2022
- Study Abroad Innovation Award, Future Technology Taihu Innovation Award by Wuxi government, 2022
- First-class Science and Technology Innovation Award, Future Technology Taihu Innovation Award by Wuxi government, 2022
- Third-class Academic Innovation Award, Future Technology Taihu Innovation Award by Wuxi government, 2022
- First-class Hong Ping Chang Qing Fund Student Science and Technology Innovation Competition Scholarship, 2022
- Second-class Hong Ping Chang Qing Fund Student Science and Technology Innovation Competition Scholarship, 2022
- Third-class Hong Ping Chang Qing Fund Student Science and Technology Innovation Competition Scholarship, 2022
- Second Prize, 12th MathorCup College Mathematical Modeling Competition (Undergraduate Group), 2022
- Second Prize, China National Collegiate Mathematics Modeling Competition (Guangdong Provincial Division), 2022
- First Prize, Asia and Pacific Mathematical Contest in Modeling (Undergraduate Group), 2022
- Third-Class South China University of Technology Scholarship, 2021-2022
- Third-class Hua Meng (TCL) Enterprise Donated Scholarship, 2021-2022
- Second Prize, Future Technology - Baidu PaddlePaddle Cup Student Science and Technology Project Competition, 2021

PROFESSIONAL
SERVICES

- Reviewer for Conference: IJCAI 2024
- Volunteer for Conference: NLPCC 2024

PROGRAMMING
SKILLS

- Programming Languages: Python, C/C++, MATLAB, VHDL, Java
- Machine Learning Libraries: Pandas, Matplotlib, PyTorch, TensorFlow, Hugging Face, langchain ...
